JOHN BARRYMORE

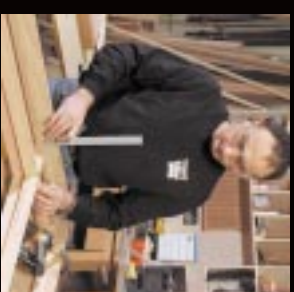

Quality and craftsmanship, backed by years of experience and careful attention to detail, bring a new level of excellence to custom door design and fabrication, including:

- Custom Stile and Rail Doors: Interior, Exterior, Engineered construction, Solid or veneered panels, Bullet-proof construction available
- Entry systems: Front entry with transoms and sidelites, Eclipse folding door systems, Lift and Slide, Radius tops, panels and moldings
- Architectural grade flush: Sketch face veneers, Domestic and Exotic faces, Matching in sequence/pairs
- Machining for hardware: Coordinated door and hardware schedules, Field measuring, Pre-hanging
- Installation
- Delivery to jobsite

With close attention to detail, extra dedication to building the very best product, and a high level of service for all clients, Daiek Woodworks offers a great experience with great results for custom doors and more.

DAIEK WOODWORKS BUILDS DOORS OF SUCH UNCOMPROMISING QUALITY AND CRAFTSMANSHIP THAT WE BRING A NEW LEVEL OF EXCELLENCE TO CUSTOM DOOR DESIGN AND FABRICATION. WITH THE LATEST HIGH-TECH EQUIPMENT AND THE ATTENTION OF OUR SKILLED CRAFTSMEN, WE CREATE QUALITY WORK THAT PROVIDES FLAWLESS PERFORMANCE DURING DECADES OF SERVICE.

■ ■
 Above: This lobby entrance door is made of Anigre with tempered glass panes. The frame is made of white oak, which also forms an accent stripe between the Anigre-veneer paneling. The crisp lines and precise alignment of all the elements leaves no margin for error and demands careful preparation and accurate field measurements to ensure this level of quality.

■ ■
 Above (top): Precision panel cutting with the Homag CNC Router: Our new, expanded shop capacity provides ample equipment, storage and work space.
 Above: Window mullions are carefully aligned and checked for precise dimensions in the final stages of door assembly.
